Competencies

Go • C# • Git

SQL • \LaTeX • Java • JS

Nim • Python • Microservices • Alexa

Languages

English

German

Interests

Automobiles, Javascript, Travelling and Food.

Education

Oct 2015 - Present **MSc., Computer Science**

University of Paderborn, Germany

Sept 2007 - July 2011 **BE., Information Science**

Visvesvaraya Technological University, India

Experience

Mar 2016 - Dec 2017 **Go Developer**

Diebold Nixdorf, Germany

- Developer in the Research & Innovation department.
- Co-developed a Go wrapper for NXP's NFC Reader Library.
- Built a REST wrapper for Shared libraries using Nim.
- Built an Amazon Alexa skill in Go which controls screens and dispenses cash.
- Fixed bugs in the implementation of a proprietary encryption algorithm.
- **Stack:** Go, Nim.

July 2011 - Sept 2015 **Full Stack Developer**

Sonata Software, India

- Developed a search engine based on SOLR.
- Developed a solution which filters rules based on certain combinations, from a collection of more than 500,000 rules.
- Migrated a data-intensive commercial web application from jQuery to AngularJS.
- **Stack:** C#, Windows Azure, LINQ, MVC3/4, ASP.NET, ADO.NET, Entity Framework, jQuery, AngularJS CSS, HTML.

Research

August 2017 - March 2018 **Incremental Support of Static Analysis Code**

Fraunhofer IEM, Germany

- Master Thesis
- Extend the Soot static analysis framework to support incremental updates to the analysis code.
- Design and implement a novel method to incrementally update the analysis when it undergoes incremental changes.
- **Stack:** Java

Projects

- **VisuFlow** - An Eclipse plugin for developing Static Analyses using the Soot static analysis framework. A [technical paper](#) was published based on this tool.
github.com/VisuFlow
- **go-nxprd** - GO wrapper for NXP's NFC Reader Library for the Raspberry Pi.
github.com/hohlerde/go-nxprd
- **gAlexa** - An Alexa skill developed in Go, used for controlling TV screens and dispense cash from an ATM, using the MQTT framework. Works in conjunction with a client.
- **nim2Rest** - A REST wrapper for shared libraries built using nim.
github.com/karthikraobr/nim2Rest

Achievements

June 2016 - Present **Advisor**

Walnuts, India

- One of the tech advisors and developer of the CMS system.
